Intensely Hydrated Complexion - Nutrihydra Nourishing Serum

A moisture-infused serum that contains Opuntia Ficus Cactus Extract and Saccharide Isomerate, SPECIFIX™ Nutrihydra Nourishing Serum improves skin hydration levels by binding and providing long-lasting moisture retention.

SPECIFIX™ Advanced Professional Serum are developed specifically to address specific skin issues by leveraging the healing properties of nature and botanicals. Each vial contains highly concentrated dosage of efficacious actives to rejuvenate the skin.

Enriched with Saccharide Isomerate & Opuntia Ficus Cactus Extract

Saccharide Isomerate is formed by isomerization of plant-derived D-glucose that is known for its excellent ability to bind to skin, this vegan hyaluronic acid booster has been shown to this deeply hydrates & nourishes skin. While Opuntia Ficus Cactus Extract is a bountiful source of antioxidant compounds known as polyphenols, many of which are excellent in providing soothing, firming & hydrating properties.

This unique formulation combined in SPECIFIX™ Nutrihydra Nourishing Serum helps improves skin hydration levels, prevents transepidermal water loss while providing long-lasting moisture retention.

Rejuvenate your skin with superb moisturization and nourishing properties!
