## **Skin Hydration Booster Treatment – Nutrihydra Skin Nourishing Facial**

SPECIFIX™ Nutrihydra Skin Nourishing Facial lavishes skin with lasting hydration and boosts skin's elasticity. A combination of replenishing botanical extracts that penetrate deep into the dermal layer help to alleviate dryness and maintain natural moisture balance, giving a soft and supple complexion.

SPECIFIX™ Advanced Facial Kits find the optimal balance between Nature and Science to adapt to your individual skin care needs. These kits are ideal for professional usage and are very effective in treating any skin problems.

### **Explore the skin-loving-ingredients**

SPECIFIX™ Nutrihydra Skin Nourishing Facial is enriched with Opuntia Ficus Cactus Extract that soothes, firms and hydrates your skin, thanks to its high content of water-binding compounds.

Trimoist (Glycine Soja Soybean Sterols) increases skin hydration and firmness with highly effective hydro-complex that perfectly supports these 3 elements of the skin's own moisture balance system:

1. Filmforming Polysaccharides – protecting the skin
2. Lamellar Lipis – boost the moisture barrier
3. Humectants – provides an instant burst of hydration with di-peptide that helps to prevent the cross-linking and stiffening of collagen by glycation.

With all of these powerful actives combined, restore essential moisture deep in the skin's matrix!

Place your order for **SPECIFIX™ Nutrihydra Skin Nourishing Facial** and discover the whole range of **SPECIFIX™**'s revolutionary formulations that are specifically made for every skin type.
