Advanced Skin Illuminating Treatment – **White Blossom Skin Whitening Facial**

SPECIFIX™ White Blossom Skin Whitening Facial lightens and evens out skin tone while inhibiting melanin production. It is enriched with natural plant extracts, Sunflower Oil and Glycolic Acid to make skin fairer, smoother and deeply hydrated.

SPECIFIX™ Advanced Facial Kits find the optimal balance between Nature and Science to adapt to your individual skin care needs. These kits are ideal for professional usage and are very effective in treating any skin problems.

Explore the skin-loving-ingredients

SPECIFIX™ White Blossom Skin Whitening Facial contains Orange Peel Extract that is enriched with Vitamin C and natural AHAs which makes it a natural lightener that brightens the skin and evens the complexion by protecting the skin cells from free radical damage. It is also proven to possess anti-tyrosinase activity that reduces skin melanin content for up to 17.3% in just one month!¹

This awesome kit also contains Glycolic Acid that is able to lighten the skin and even out the skin tone by breaking down the bonds between the melanin and the skin cells as well as exfoliating the skin's surface, in turn reducing sun damage and skin discoloration.

With all of these powerful actives combined, unlock the secret to porcelain skin.

Place your order for SPECIFIX™ White Blossom Skin Whitening Facial and discover the whole range of SPECIFIX™'s revolutionary formulations that are specifically made for every skin type.
